Description

SC MAX-A1/A2 AUTO-06	
Voltage	12/24 VDC
Wind Generator Max Power	600W
Wind Generator Rated Current	14/25A
Maximum Current Output	15/30A
Protection	Overcharge, over-discharge, reverse connection of batteries, overloading, lighting, current control, automatic or manual braking of wind generator
Display	LED
Function	MPPT charging
Unloading Way	PWM electrode-less and noiseless unloading
Working Temperature	-20°C-60°C / 35-85% humidity (no condensation)
